

PRIORITY SKILLS LIST

(Queensland VET Investment Programs 2024-25)

NOTICES:

* The Priority Skills List contains qualifications and priority skill sets subsidised by government with the listed subsidy amounts paid directly to the skills assure supplier as set out in the associated policies. Additionally, each skills assure supplier determines student fees as a contribution towards the costs of training. The department encourages students as consumers to do their research when considering their training options with tips available online at www.desbt.qld.gov.au/training/training-careers/courses/studentguide/tips.

* Certificate 3 Guarantee and Higher Level Skills Program Policies - Under "Who is eligible to receive training" includes this statement - "Any additional eligibility requirements will be based on industry advice or requirements under the relevant national training package...". SAS must refer to www.desbt.qld.gov.au/training/providers/funded for additional eligibility requirements for funded qualifications/priority skill sets.

* RTOs are to comply with the training package requirements including any specified entry requirements before enrolling prospective students.

* Priority Skill Sets are identified with the word "skill set" at the end of the training product name and applies to the Higher Level Skills program only.

* "Restricted Qualifications" are managed under special arrangements, only Skills Assure Suppliers specifically authorised by the Department can deliver publicly-funded training for these qualifications.

* DESBT is aware of all newly released training package qualifications that replace/supersede qualifications listed on the Priority Skills List and dates for any funding information or replacement qualification releases is unable to be provided.

* RTOs must refer to the Australian Skills Quality Authority (ASQA) requirements to "Manage transition from superseded training products" including the associated notices for qualifications / skill sets. ASQA's published "When training products change" www.asqa.gov.au/rto/change-rto-scope/when-training-products-change contains RTO compliance requirements for transition arrangements of training package / accredited courses replaced by a newer version and within ASQA transition periods.

RTOs must comply with any conditions that ASQA may have applied as part of extended transition periods as published on ASQA's website - contact ASQA directly if your RTO requires advice on any conditions applied to transition extensions.

The department does not fund training packages or accredited courses beyond ASQA's transition / teach out periods.

* Regional Location loadings - refer to the current Skills Assure Supplier Policy for the conditions.
